

# U.N. International Women and Girls in Science Day

## Schedule of Events

**Thursday,  
February 9**

**Seminar by Åsa K. Rennermalm**

Associate Professor of Geography, Rutgers University  
*Greenland ice sheet melting away*  
3:30 pm in Bless Auditorium (Williamson Hall)

**Thursday,  
February 9**

**Talk Science with Her**

An open discussion between the public and UF scientists  
7:00-8:00 pm at First Magnitude Brewery

**Thursday,  
February 9**

**Seminar by Alison Sherwood**

Professor and Chair of Botany, University of Hawaii  
*Building a tropical flora: origins and affinities of Hawaiian non-marine algae*  
3:30 pm, 221 Bartram Hall

**Thursday,  
February 9**

**Colloquium by Marcia Rieke**

Regent's Professor of Astronomy, University of Arizona  
*NIRCam for JWST: Your Next Near-Infrared Camera in Space*  
12:45 pm, Bryant Room 217

**Friday,  
February 10**

**Seminar by Laura Greene**

Chief Scientist, National High Magnetic Field Laboratory  
*Topological surface states interacting with bulk spin excitons in the Kondo insulator  $S\text{mB}_6$  as revealed by planar tunneling spectroscopy*  
11:00 am 2165 New Physics Building

**Friday,  
February 10**

**Astronomy Open Observatory**

8:30-10:00 pm at the Campus Teaching Observatory

**Saturday,  
February 11**

**Frogs! Exhibit Celebration**

Activities by Amber Singh, Kirsten Hecht, Jessica Oswald, & Lauren Gonzales  
10:00 am-3:00 pm at the Florida Museum of Natural History

**Saturday,  
February 11**

**Women & Girls in Science Day Fair**

Explore different fields of science through demos and info sessions.  
10:00 am-2:00 pm in the Reitz Union Breezeway
